

Rough Patch Affordable EAP and Mental Health Supports

Helping you support the mental wellness and resilience of your workforce

We know that Employee Access Programs (EAP) are costly and this makes it hard for micro- and small-business to offer these vital services to their staff.

At Rough Patch, we believe everyone should have access to counselling and mental health supports, so we created a simple, uncomplicated and affordable workplace mental health program. No retainers, no monthly fees, no fuss. Simply pay a flat fee for each session, and if your employees don't access the program, you pay nothing.
